

Millis Public Schools Personalizing Learning

*For Maximizing Learner Well-being
and Growth to ensure Future Readiness*

Essential 21st Century Competencies:

1. Communication skills
2. Collaboration and team skills
3. Critical thinking & problem solving
4. Creativity & innovation
5. Content Knowledge
6. Personal Efficacy - responsibility, organization, time-management, etc.
7. Global citizenship & cultural competency

Learners in MPS engage in real-world, project-based learning in order to develop the competencies that are required in a global 21st century innovation economy.

Through carefully designed units and lessons that incorporate Universal Design for Learning students develop more agency, being mindful of the standards they must master, helping plan how to learn and then demonstrate those standards, self-assessing and reflecting on feedback from peers and teachers to determine next steps.

Through the learning process Millis students develop 21st Century Competencies (shown at left). They learn HOW to learn and become capable of applying their learning in new situations. They become caring and engaged citizens of their own community and of the world.
